Make surface finishing fast, flexible and easy

Achieve professional surface finishing results effortlessly with Mimic Sander, an all-in-one solution designed to cater to a range of automated surface finishing needs.

We provide a complete system together with our partners

Together with our tool partner Mirka we also provide our recommendations on the full system, table, tool unit, and abrasive changer for you to build a complete setup that fits your production.

Why choose Mimic Sander?

- ✓ Scale up your production with consistent output
- ✓ Reduce the amount of wasted materials
- ✓ Automate dangerous jobs and improve employee conditions
- ✓ Build personalized sanding programs that consist of many different recordings
- ✓ Ensure the right outcome with visual, audio, and tactile control
- ✓ Get the sanding job done and take control over the tool, position, speed, and applied force

What does the system include?

- Nordbo Robotics Table
- Airos Sander tool from Mirka & Nordbo
- Active compensation unit
- Mimic Sander Joystick
- Mimic Sander Interface & Software
- Screen and mounting
- UR10E Robot
